**Explanations**

Notice: Following are several items related to claims made policies that should be considered.

**Prior Acts**

If a claims made policy contains a retroactive date, that policy provides no coverage for claims arising out of incidents, occurrences, or alleged wrongful acts which took place prior to that retroactive date.

**Claims Made During Policy Period**

This policy covers only claims actually made or incidents reported against the insured while policy remains in effect, or any applicable extended reporting period. All coverage under the policy ceases upon the termination date, except for the automatic extended reporting period coverage, unless the insured purchases additional extended reporting period coverage.

**Extended Reporting Period**

The automatic extended reporting period is sixty (60) days from the termination or expiration date of the policy. The additional extended reporting period, if purchased, may be up to three (3) years for non-profit policies. If this extended reporting period is not purchased and the subsequent policy does not provide full prior acts coverage or is an occurrence policy, there may be gaps in coverage.

**Claims-made Policy Maturity**

When the retroactive date on a claims made policy is concurrent with the effective date of the policy or less than five years prior to the effective date, there is considered to be a reduced level of exposure in relation to an occurrence policy. For this reason, claims made rates are comparatively lower than occurrence rates. As the claims made relationship matures, the insured can expect substantial annual premium increases independent of overall rate level increases. If, however, the retroactive date on a claims made policy is more than five years prior to the effective date of the policy, that claims made relationship is considered mature and rate levels will not increase for this reason.
