## 16 | Special Report: The California Fires

An in-depth look at how public assembly venues responded to the California fires — and what the industry learned in the process. By Mark Henricks

## 22 | Bio-Risky Business

The likelihood that communicable diseases, contamination and bioterrorism will affect your venue is escalating at an alarming rate. Here's how to prepare. By Brittany Glenn

## 28 | The Predator on Your Payroll

Learn how some prospective employees may present an unseen danger to attendees — and how background checks can help. By Lori Baker

## PERSPECTIVE

### 34 | Can You Sleep at Night?

A “journal entry from the past” provides a wake-up call for today’s venue managers.

Joe Psuik III, CFE

### 36 | The Cost of Caring

Federal disaster assistance should reimburse facilities for the high costs associated with providing shelter.

By Greg Davis
